

Monster EZ1 XL PRO Floor Steamer

The best just got better with the new Extra Large (XL) sized Monster Floor Steamer. By increasing the size of our base plate 25%, we've made steam cleaning floors faster and easier than ever before. We even added oversized absorbent Microfiber pads (2) to eliminate any streaking due to excess moisture caused when smaller pads get too wet during use. We've kept our unique front steam jets to clean stair risers, kitchen baseboards and even those hard to reach corners so you can clean right up to the edge of every room. Instead of a pump delivery system other companies use, the XL Pro features a powerful 1,000 Watt Stainless Steel pressurized boiler to deliver a dryer, deeper penetrating steam. For deep cleaning thick pile carpeting, this is a must. With better steam, a bigger cleaning surface and front steam jets, you'll finish cleaning your hard floors and carpets in no time.

Monster EZ1 XL PRO Floor Steamer

Features

Dual Steam Distribution. Bottom steam jets for floor will activate automatically when releasing the handle from the upright position. Front Steam Jets for cleaning baseboards or stair risers are activated on demand only when pulling the trigger on the handle.

Extra Large (XL) extra absorbent machine washable Microfiber pads get floors clean, while leaving them virtually dry and streak free. 2 pads for hard floor cleaning, one for cleaning carpets that fits into the easy gliding carpet sledge.

Power On & Steam Ready Indicator Lights. For safety purposes, the Red light alerts you the steamer is plugged into an outlet. The green light is the "Steam Ready" indicator letting you it's ready to be used.

25% larger base plate holds XL Microfiber pads creating a 16" wide cleaning path, which requires fewer passes on your floor, resulting in faster cleaning time.

Ergonomic handle with an easy release trigger to active the 4 front steam jets when needed.

Powerful 1,000 watt stainless steel boiler is ready to steam in 3 - 5 minutes, generating a high volume "dry" penetrating steam.
